STUDIES

2013–2017:
B.A. Economics-Mathematics
Whitman College, WA

CERTIFICATIONS

2021:
Scrum Master
Certification
Scrum Alliance
2021:
MCSD−Microsoft
2019:
Application
creation−Microsoft

SKILLS

- Dockerized Apps
- Infrastructure
- Monitoring
- CI/CD and IaC
- Security
- Analytics
- Cost Optimization

MARTIN MUNGUIA
DevOps Engineer

Always at the forefront of DevOps technology developing performant and reliable cloud architectures. Expert in AWS, Linux, CI/CD, containerization, and Infrastructure-as-Code.

EXPERIENCE

Tech consultant — *FREELANCE* — *03/2023−06/2019*

I offer software and web design consulting and keep a tech blog. I also maintain open-source projects for local communities.

DevOps — *THE STAR TRIBUNE* — *05/2020 – 08/2022*

Oversaw the migration of monolithic PHP apps to an AWS cloud infrastructure by designing efficient and effective CI/CD methods and Docker architectures with monitoring and rapid incident response strategies. Managed cloud costs, security policies, and application performance.

DevOps — *REALOGY (Contract)* — *06/2019 – 12/2019*

I developed PowerShell and CLI tools to optimize the performance and costs of over 300 EC2 servers, reducing AWS cloud costs by 30% and meeting SOC2 security guarantees.

DevOps — *CLIENTEK* — *01/2018−06/2019*

I automated various aspects of application management, from code development to deployment and monitoring, for over a dozen Agile teams spanning multiple languages and frameworks. I assisted project leaders and technical staff with goal planning, architecture, and code review.

ML Engineer — *KEY TECH* — *06/2017−09/2017*

I developed cutting-edge detection algorithms with artificial intelligence and Python leading to a 90% improvement in speed and accuracy of detection in chemometric cameras for the food technology sector.
